TRANSFORMATION (PROMINENT) The base offence, terminating a pregnancy as such, is excluded per the annotation “not included because not part of general ethics rules”, consistent with §§218a to 219b Excluded. The encoded offence is the edited paragraph 2 chapeau: termination against the will of the pregnant woman, or with reckless endangerment of her life or health. The serious-cases penalty machinery is struck; the circumstances are offence-constituting here, not grading.

DEFINITION CARRIED The pre-implantation carve-out of (1) sentence 2 bounds {TerminatesPregnancy} and is carried as TPY-R80; the strike markers around (1) are incomplete in the source document, the annotation governs the base offence and the definition serves the live (2).
